AQUARIUM PRODUCTS DETAIL

NDC	UPC	UCC	Vendor Item Number	Product Name	Product Size	Volume product treats or # of test	Thumbnail Description	Product Description	Case Pack (eaches)	Eaches per Display
N	317163020470	10317163020477	47B	GOLDFISH PROTECT, 4 OZ	4 oz. bottle (118 ml)	Treats 47 U.S. Gallons (178 L)	Makes tap water safe and protects Goldfish from harmful ammonia.	API® Goldfish Protect makes tap water safe and protects Goldfish from harmful ammonia. It also adds a protective slime coat and trace minerals.	72	
N	317163020487	10317163020484	48B	GOLDFISH AQUARIUM CLEANER, 4 OZ	4 oz. bottle (118 ml)	Treats 47 U.S. Gallons (178 L)	Simplifies the chore of maintaining Goldfish by helping to clean a dirty Goldfish aquarium or bowl.	API® Goldfish Aquarium Cleaner simplifies the chore of maintaining Goldfish by helping to clean a dirty Goldfish aquarium or bowl.	72	
C-name	317163020463	10317163020460	46B	GOLDFISH SUCCESS PACK	1 oz. bottles on blister card (30 ml)		Use for a healthy, naturally-balanced aquarium. Perfect for fresh and saltwater aquariums and goldfish bowls.	Together, Ammo Lock and Stress Zyme assure good water quality, a healthy fish and a clean aquarium. Use when setting up your fresh or saltwater aquarium and every time you add water.	36	
	317163034118	10317163034115	411C	Melafix Extra Strength Cichlid	8 oz	Treats up to 474 gallons (1794 L)	A safe, all natural way to treat bacterial infections in Cichlids. Extra strength formula heals wounds and torn fins.	A safe, all natural way to treat bacterial infections in Cichlids, Melafix Extra Strength Cichlid treats open red sores, open wounds and torn fins caused by fighting and aggressive territorial behaviour due to breeding. It also treats fin & tail rot, eye cloud, pop eye, body slime and mouth fungus.	12	
	317163034873	10317163034870	487C	Sludge Destroyer Cichlid	8 oz	Treats up to 237 gallons (897 L)	Contains more than 3 billion bacteria spores per dose to digest sludge and dissolved organics of a cleaner and healthier aquarium.	Sludge Destroyer Cichlid is a super concentrated blend of beneficial bacteria for superior sludge control containing more than 3 billion bacteria spores per dose. Creates a cleaner, healthier environment and reduces aquarium maintenance. Great for heavily stocked aquariums.	12	
	317163034309	10317163034306	430C	Amazon Extract Cichlid	8 oz	Treats up to 474 gallons (1794 L)	Non-tinting formula recreates Amazon river conditions to help create ideal water conditions to promote breeding and coloration.	A non-tinting formula, Amazon Extract Cichlid is developed to create ideal conditions for South American cichlids by recreating the Amazon river environment to promote breeding and coloration. Proprietary blend of humic acids, tannins and other beneficial organics. Does not alter pH.	12	
	317163034200	10317163034207	420C	Natural Trace Cichlid	8 oz	Treats up to 474 gallons (1794 L)	Recreates African rift lakes conditions with naturally derived trace minerals to promote breeding and coloration.	Contains naturally derived trace minerals, including copper, zinc, manganese, iron, selenium, molybdenum and iodine found in African rift lake waters, accurately imitating the lakes' chemical profile to ensure the best cichlid environment possible.	12	
	317163034705	10317163034702	470C	African Mineral Salts Cichlid	240 g/8.4 oz	Treats up to 890 gallons (3369 L)	Contains all the trace elements required to create a healthy environment for African cichlids without altering pH.	Contains all the trace elements required to create a healthy environment for African cichlids without altering pH. Recreates the natural hardness of African rift lakes. Use with Buffer Max Cichlid to achieve the desired water hardness or alkalinity.	12	
	317163034606	10317163034603	460C	Buffer Max Cichlid	240 g/8.4 oz	Treats up to 890 gallons (3369 L)	Recreates the natural pH and alkalinity (KH) of Lake Victoria, Malawi and Tanganyika for African cichlids originating from African rift lakes.	Recreates the natural pH and alkalinity (KH) of Lake Victoria, Malawi and Tanganyika for African cichlids originating from African rift lakes. Alkalinity is increased by a special blend of carbonates, bicarbonates and borates. Maintains pH between 7.8 and 8.8.	12	
	317163033852	10317163033859	385C	Stress Coat Marine	8 oz	Treats up to 474 gallons (1794 L)	Fish & Tap Water Conditioner that removes chlorine, chloramines and ammonia from tap water and contains the healing power of aloe vera.	Fish & Tap Water Conditioner that removes chlorine, chloramines and ammonia from tap water in a Marine tank. Stress Coat® Marine is the only marine water conditioner with the healing power of aloe vera. Developed for use with a protein skimmer so it will not cause foaming.	12	
	317163043851	10317163043858	385D	Stress Coat Marine	16 oz	Treats up to 948 gallons (3588 L)	Fish & Tap Water Conditioner that removes chlorine, chloramines and ammonia from tap water and contains the healing power of aloe vera.	Fish & Tap Water Conditioner that removes chlorine, chloramines and ammonia from tap water in a Marine tank. Stress Coat® Marine is the only marine water conditioner with the healing power of aloe vera. Developed for use with a protein skimmer so it will not cause foaming.	12	
	317163033111	10317163033118	311C	Melafix Marine	8 oz	Treats up to 474 gallons (1794 L)	All natural fish & coral treatment with tea tree extract (Melaleuca) which rapidly repairs fish tissue and reverses coral degradation.	Anti-Bacterial Fish & Coral Remedy: An all natural fish & coral treatment with tea tree extract (Melaleuca). Melafix® Marine rapidly repairs damaged fins, ulcers and open wounds, and also reverses coral degradation.	12	
	317163043110	10317163043117	311D	Melafix Marine	16 oz	Treats up to 948 gallons (3588 L)	All natural fish & coral treatment with tea tree extract (Melaleuca) which rapidly repairs fish tissue and reverses coral degradation.	Anti-Bacterial Fish & Coral Remedy: An all natural fish & coral treatment with tea tree extract (Melaleuca). Melafix® Marine rapidly repairs damaged fins, ulcers and open wounds, and also reverses coral degradation.	12	
	317163033876	10317163033873	387C	Algaefix Marine	8 oz	Treats 2400 gallons (9072 L)	EPA-registered reef-safe algaecide that controls many types of algae in marine & reef aquariums.	Aquarium Algaecide that is EPA-registered as reef-safe. Algaefix® Marine controls many types of algae in marine & reef aquariums. It will not harm marine fish, corals or other invertebrates and keeps marine aquariums clean and clear.	12	
	317163043875	10317163043872	387D	Algaefix Marine	16 oz	Treats 4800 gallons (18144 L)	EPA-registered reef-safe algaecide that controls many types of algae in marine & reef aquariums.	Aquarium Algaecide that is EPA-registered as reef-safe. Algaefix® Marine controls many types of algae in marine & reef aquariums. It will not harm marine fish, corals or other invertebrates and keeps marine aquariums clean and clear.	12	
	317163043202	10317163043209	320D	Natural Trace Marine	16 oz	Treats 948 gallons (3588 L)	All natural reef supplement containing over 60 essential trace elements found in sea water.	Natural Trace™ Marine is an all natural reef supplement containing over 60 essential trace elements found in sea water. The proprietary mixture of key trace elements is an essential supplement for the reef or marine tank.	12	
	317163043301	10317163043308	330D	Eco-Calcium Marine	16 oz	Treats 948 gallons (3588 L)	Essential reef supplement that provides calcium for proper growth & health of corals and other invertebrates.	Essential Reef Supplement: Eco-Calcium™ Marine provides the calcium needed for proper growth & health of corals and other reef invertebrates.	12	
	317163043400	10317163043407	340D	Eco-Iodine Marine	16 oz	Treats 948 gallons (3588 L)	Essential reef supplement providing a natural source of iodine that uses a unique, slow release formula.	Essential Reef Supplement: Eco-Iodine™ Marine provides a natural source of iodine; a unique, slow release formula.	12	
	317163043509	10317163043506	350D	Eco-Strontium Marine	16 oz	Treats 948 gallons (3588 L)	Essential reef supplement providing strontium from a natural source derived from marine plant extracts.	Essential Reef Supplement: Eco-Strontium™ Marine provides strontium from a natural source that is derived from marine plant extracts.	12	
	317163033609	10317163033606	360C	Buffer Max Marine	220g	Treats 430 gallons (1627 L)	Aquarium water buffer that raises pH to 8.2-8.4. Also makes calcium available for corals.	Buffer Max™ Marine is an aquarium water buffer that raises pH to 8.2-8.4, and also makes calcium available for corals.	12	
	017163011750	10017163011757	175	TAP WATER FILTER™	One unit in box	Filters 10 gallons of water per hour	Single cartridge tap water filtration system; filters 10 gallons of water per hour with no waste.	Single cartridge tap water filtration system; filters 10 gallons of water per hour with no waste.	6	
	017163021759	10017163021756	175A	Replacement Filter Cartridge for TAP WATER™ Filter	One cartridge		Continue making deionized water with ready-to-use TAP WATER Filter replacement cartridge.	Ready-to-use replacement cartridge easily connects to Tap Water Filter to continue making perfect deionized aquarium water.	12	
	017163031758	10017163031755	175C	pH Adjuster	4 oz. bottle (118 ml)	Treats up to 120 gallons (452 L)	Accurately adjust pH of deionized water from 5.5 to 8.2.	Accurately adjusts the pH of deionized water from 5.5 to 8.2. Specially formulated for delicate tropical fish. Contains no phosphate.	12	
	017163041757	10017163041754	175D	ELECTRO-RIGHT™	4 oz. bottle (118 ml)	Treats up to 120 gallons (452 L)	Add minerals and electrolytes to purified tap water for proper gill function.	Adds minerals and electrolytes to purified tap water for proper gill function. Beneficial for delicate tropical fish.	12	
C	317163020197	10317163020194	19B	ALGAE DESTROYER ADVANCED™ Liquid	4 oz. bottle (120 ml)	Treats 1200 gallons	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	72	
	317163030196	10317163030193	19C	ALGAE DESTROYER ADVANCED™ Liquid	8 oz. bottle (240 ml)	Treats 2400 gallons	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	12	
	317163040195	10317163040192	19D	ALGAE DESTROYER ADVANCED™ Liquid	16 oz. bottle (473 ml)	Treats 4800 gallons	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	New formula treats more gallons, effective control of many types of algae in freshwater aquariums with live plants and fish.	12	
	317163010877	10317163010874	87A	ALGAEFIX®	P.O.P. Display of one dozen 1 oz. bottles	Each 1 oz. Bottle treats 300 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	144	
	317163020876	10317163020873	87B	ALGAEFIX®	1.25 oz. bottle on card (37 ml)	Treats 370 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	72	
	317163030875	10317163030872	87C	ALGAEFIX®	4 oz. bottle (120 ml)	Treats 1200 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	72	
	317163040874	10317163040871	87D	ALGAEFIX®	8 oz. bottle (240 ml)	Treats 2400 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	12	
	317163050873	10317163050870	87E	ALGAEFIX®	16 oz. bottle (473 ml)	Treats 4800 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	12

AQUARIUM PRODUCTS DETAIL

NDC	UPC	UCC	Vendor Item Number	Product Name	Product Size	Volume product treats or # of test	Thumbnail Description	Product Description	Case Pack (eaches)	Eaches per Display
	317163060872	10317163060879	87F	ALGAEFIX®	64 oz. bottle (1.89 L)	Treats 19200 gallons	Revolutionary product that controls many types of algae in freshwater aquariums with live plants and fish.	A revolutionary new product for controlling many types of algae in freshwater aquariums containing live plants and fish. Keeps freshwater aquariums clean and clear.	6	
	017163125303	10017163125300	30A	pH Down®	1.25 oz. bottle on card (37 ml)	1/2 teaspoonful for each 25 gallons of aquarium water	Safely lowers pH in freshwater aquariums. Concentrated.	Lowers pH and makes aquariums more acidic. Fast-acting, colorless, easy-to-use and will not cloud or color aquarium water.	72	
	017163020301	10317163020309	30B	pH Down®	16 oz. bottle (473 ml)	1/2 teaspoonful for each 25 gallons of aquarium water	Safely lowers pH in freshwater aquariums. Concentrated.	Lowers pH and makes aquariums more acidic. Fast-acting, colorless, easy-to-use and will not cloud or color aquarium water.	12	
	317163030301	10317163030308	30C	pH Down®	4 oz. bottle (118 ml)	1/2 teaspoonful for each 25 gallons of aquarium water	Safely lowers pH in freshwater aquariums. Concentrated.	Lowers pH and makes aquariums more acidic. Fast-acting, colorless, easy-to-use and will not cloud or color aquarium water.	12	
	017163125310	10017163125317	31A	pH Up®	1.25 oz. bottle on card (37 ml)	Add 2.5 ml for each 25 U.S. gallons of aquarium water	Safely raises pH in freshwater aquariums. Concentrated.	Liquid pH Control. pH Up is fast acting and colorless, it raises pH and makes water more alkaline without clouding the water.	72	
	017163020318	10317163020316	31B	pH Up®	16 oz. bottle (473 ml)	Add 2.5 ml for each 25 U.S. gallons of aquarium water	Safely raises pH in freshwater aquariums. Concentrated.	Liquid pH Control. pH Up is fast acting and colorless, it raises pH and makes water more alkaline without clouding the water.	12	
	317163030318	10317163030315	31C	pH Up®	4 oz. bottle (118 ml)	Add 2.5 ml for each 25 U.S. gallons of aquarium water	Safely raises pH in freshwater aquariums. Concentrated.	Liquid pH Control. pH Up is fast acting and colorless, it raises pH and makes water more alkaline without clouding the water.	12	
	317163010358	10317163010355	35	Proper pH® 6.5	Two 12 gram packets	Each Packet treats 10 gallons	Automatically set & stabilize pH at 6.5. Removes chlorine & detoxifies heavy metals. For Tetras, Discus, Angels	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	36	
	317163030356	10317163030353	35C	Proper pH® 6.5	Jar of 240 grams	Treats more than 200 gallons	Automatically set & stabilize pH at 6.5. Removes chlorine & detoxifies heavy metals. For Tetras, Discus, Angels	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	12	
	317163010365	10317163010362	36	Proper pH® 7.0	Two 12 gram packets	Each Packet treats 10 gallons	Automatically set and stabilize pH at 7.0. Removes chlorine and detoxifies heavy metals. For community aquariums.	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	36	
	317163030363	10317163030360	36C	Proper pH® 7.0	Jar of 250 grams	Treats more than 200 gallons	Automatically set and stabilize pH at 7.0. Removes chlorine and detoxifies heavy metals. For community aquariums.	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	12	
	317163010372	10317163010379	37	Proper pH® 7.5	Two 12 gram packets	Each Packet treats 10 gallons	Automatically set & stabilize pH at 7.5. Removes chlorine & detoxifies heavy metals. For Goldfish, Mollies, Guppies, Barbs	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH at 7.5 while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	36	
	317163030370	10317163030377	37C	Proper pH® 7.5	Jar of 260 grams	Treats more than 200 gallons	Automatically set & stabilize pH at 7.5. Removes chlorine & detoxifies heavy metals. For Goldfish, Mollies, Guppies, Barbs	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH at 7.5 while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water.	12	
	317163010396	10317163010393	39	Proper pH® 8.2	Two 14 gram packets	Each Packet treats 20 gallons	Automatically set and stabilize pH at 8.2. For Saltwater, Brackish and African Cichlid Aquariums.	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH at 8.2 while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water. No phosphate.	36	
	317163030394	10317163030391	39C	Proper pH® 8.2	Jar of 200 grams	Treats more than 200 gallons	Automatically set and stabilize pH at 8.2. For Saltwater, Brackish and African Cichlid Aquariums.	Easy-to-use, fast dissolving powder that automatically sets and stabilizes pH at 8.2 while neutralizing chlorine and detoxifying heavy metals. Contains aloe vera and electrolytes to reduce fish stress. Use when setting up aquarium or changing water. No phosphate.	12	
	317163010457	10317163010454	45A	Ammo-Lock®	P.O.P. Display of one dozen 1 oz. bottles	Each 1 oz. bottle treats 60 gallons	Instantly detoxify deadly ammonia and remove chlorine and chloramine from aquarium water.	Detoxifies ammonia produced by fish waste. Removes chlorine and chloramine from tap water. Eliminates ammonia stress and protects healthy gill function. Treats 60 gallons of fresh or salt water.	144	
	317163030455	10317163030452	45C	Ammo-Lock®	4 oz. bottle (118 ml)	Treats 236 gallons	Instantly detoxify deadly ammonia and remove chlorine and chloramine from aquarium water.	Detoxifies ammonia produced by fish waste. Removes chlorine and chloramine from tap water. Eliminates ammonia stress and protects healthy gill function. Treats 240 gallons of fresh or salt water.	72	
	317163040454	10317163040451	45D	Ammo-Lock®	8 oz. bottle (237 ml)	Treats 474 gallons	Instantly detoxify deadly ammonia and remove chlorine and chloramine from aquarium water.	Detoxifies ammonia produced by fish waste. Removes chlorine and chloramine from tap water. Eliminates ammonia stress and protects healthy gill function. Treats 480 gallons of fresh or salt water.	12	
	317163050453	10317163050450	45E	Ammo-Lock®	16 oz. bottle (473 ml)	Treats 946 gallons	Instantly detoxify deadly ammonia and remove chlorine and chloramine from aquarium water.	Detoxifies ammonia produced by fish waste. Removes chlorine and chloramine from tap water. Eliminates ammonia stress and protects healthy gill function. Treats 960 gallons of fresh or salt water.	12	
	017163002529	10017163002526	52B	TAP WATER CONDITIONER™	4 oz. bottle (118 ml)	Treats up to 2,360 gallons	Instantly remove chlorine and detoxify heavy metals from tap water.	Concentrated. Instantly removes chlorine and detoxifies heavy metals from tap water. Safe for all aquarium life. One teaspoon treats 10 gallons.	12	
	017163003526	10017163003523	52C	TAP WATER CONDITIONER™	16 oz. bottle (473 ml)	Treats up to 9,460 gallons	Instantly remove chlorine and detoxify heavy metals from tap water.	Concentrated. Instantly removes chlorine and detoxifies heavy metals from tap water. Safe for all aquarium life. One teaspoon treats 10 gallons.	12	
	017163004523	10017163004520	52D	TAP WATER CONDITIONER™	1 gallon bottle (3.78 L)	Treats up to 60480 gallons	Instantly remove chlorine and detoxify heavy metals from tap water.	Concentrated. Instantly removes chlorine and detoxifies heavy metals from tap water. Safe for all aquarium life. One teaspoon treats 10 gallons.	4	
	017163005520	10017163005527	52E	TAP WATER CONDITIONER™	P.O.P. Display of one dozen 1 oz. bottles	Each 1 oz. bottle treats 600 gallons	Instantly remove chlorine and detoxify heavy metals from tap water.	Concentrated. Instantly removes chlorine and detoxifies heavy metals from tap water. Safe for all aquarium life. One teaspoon treats 10 gallons.	144	
	317163060520	10317163060527	52F	TAP WATER CONDITIONER™	1.25 oz bottle on card (37 ml)	Treats up to 740 US gallons	Instantly remove chlorine and detoxify heavy metals from tap water.	Concentrated. Instantly removes chlorine and detoxifies heavy metals from tap water. Safe for all aquarium life. One teaspoon treats 10 gallons.	72	
	317163010563	10317163010560	56A	STRESS ZYME®	P.O.P. Display of one dozen 1 oz. bottles (30 ml)	Treats up to 10 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats up to 60 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	144	
	317163040560	10317163040567	56C	STRESS ZYME®	4 oz. bottle (118 ml)	Treats up to 236 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats up to 240 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	72	
	317163080566	10317163080563	56D	STRESS ZYME®	8 oz. bottle (237 ml)	Treats up to 474 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats 480 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	12	
	317163160565	10317163160562	56E	STRESS ZYME®	16 oz. bottle (473 ml)	Treats up to 946 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats up to 960 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	12	
	317163128565	10317163128562	56F	STRESS ZYME®	1 gallon bottle (3.78 L)	Treats up to 7,516 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats up to 7,680 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	4	
	317163100561	10317163100568	56J	STRESS ZYME®	64 oz. bottle	Treats up to 3,786 gallons	Improve the development of your biological filter & help maintain a naturally balanced aquarium. Treats up to 3,840 gal.	Contains 300 million live bacteria per teaspoonful. Helps clean an aquarium by eliminating sludge build-up. Prevents ammonia & nitrite poisoning, low oxygen levels & low pH. Use when setting up and maintaining an aquarium.	6	
D	317163030677	10317163030674	67C	SPARKLING CLEAR®	1.25 oz bottle on card (37 ml)	1 teaspoonful per 5 gallons of aquarium water, treats 37 gallons per bottle.	Quickly remove cloud, haze and suspended particles from the aquarium.	Colorless and non-toxic. Increases the effectiveness of the filter. Add to the aquarium once a month to keep water crystal clear.	72	
	317163010846	10317163010843	84A	STRESS COAT®/STRESS ZYME® Starter Kit	1 oz. bottles on blister card (30 ml)		Use for a healthy, naturally-balanced aquarium. Perfect for fresh and saltwater aquariums and goldfish bowls.	Together, Stress Coat and Stress Zyme assure good water quality, an efficient biological filter, healthy fish and a clean aquarium. Use when setting up your fresh or saltwater aquarium and every time you add water.	36	
	317163250846	10317163250843	84B	STRESS COAT®/STRESS ZYME® TRIAL	P.O.P. Display, 30 - .25 oz. (7.4 ml) each of STRESS COAT and STRESS ZYME in a foil packet		Use for a healthy, naturally-balanced aquarium. Perfect for fresh and saltwater aquariums and goldfish bowls.	Together, Stress Coat and Stress Zyme assure good water quality, an efficient biological filter, healthy fish and a clean aquarium. Use when setting up your fresh or saltwater aquarium and every time you add water.	12	30
	317163080856	10317163080853	85A	STRESS COAT®	8 oz. bottle (237 ml)	Treats up to 474 U.S. gallons	Replaces the natural slime coating fish need in times of stress. Neutralizes chlorine & heavy metals in tap water.	Acts as a liquid bandage to prevent the loss of essential electrolytes; protects damaged tissue against disease-causing organisms. Helps heal torn fins & skin wounds. Use when setting up aquarium or changing water. Contains aloe vera. Treats up to 480 gal.	12	
	317163030851	10317163030858	85B	STRESS COAT®	4 oz. bottle (118 ml)	Treats up to 236 U.S. gallons	Replaces the natural slime coating fish need in times of stress. Neutralizes chlorine & heavy metals in tap water.	Acts as a liquid bandage to prevent the loss of essential electrolytes; protects damaged tissue against disease-causing organisms. Helps heal torn fins & skin wounds. Use when setting up aquarium or changing water. Contains aloe vera. Treats up to 240 gal.	72	
	317163050859	10317163050856	85C	STRESS COAT®	16 oz. bottle (473 ml)	Treats up to 946 U.S. gallons	Replaces the natural slime coating fish need in times of stress. Neutralizes chlorine & heavy metals in tap water.	Acts as a liquid bandage to prevent the loss of essential electrolytes; protects damaged tissue against disease-causing organisms. Helps heal torn fins & skin wounds. Use when setting up aquarium or changing water. Contains aloe vera. Treats up to 960 gal.	12	
	317163100851	10317163100858	85D	STRESS COAT®	1 gallon bottle (3.78 L)	Treats up to 7,570 U.S. gallons	Replaces the natural slime coating fish need in times of stress. Neutralizes chlorine & heavy metals in tap water.	A patented formula containing Aloe Vera, nature's liquid bandage, to protect & Heal fish. Forms a synthetic slime coating on the skin of fish. Removes chlorine & heavy metals. Use whenever setting up an aquarium or changing water. Treats up to 7,800 gal.	4

	017163125129	10017163125126	12A	Liquid Super Ick Cure™	1.25 oz. bottle on card (37 ml)	Treats up to 37 U.S. gallons	An effective treatment for Ich (Ichthyophthirius), also called white spot disease, in freshwater fish.	Effectively treats Ich, a highly contagious & very destructive parasite, which may cause large wounds that easily become infected. Kills the Ich parasite, usually within 24 hours & helps replace the natural protective skin slime destroyed by the disease.	72	
	017163020127	10017163020124	12B	Liquid Super Ick Cure™	4 oz. bottle (118 ml)	Treats up to 118 U.S. gallons	An effective treatment for Ich (Ichthyophthirius), also called white spot disease, in freshwater fish.	Effectively treats Ich, a highly contagious & very destructive parasite, which may cause large wounds that easily become infected. Kills the Ich parasite, usually within 24 hours & helps replace the natural protective skin slime destroyed by the disease.	12	
	017163125136	10017163125133	13A	Liquid Fungus Cure™	1.25 oz. bottle on card (37 ml)	Treats up to 37 U.S. gallons	Effectively treats saprolegnia fungus infections (eye fungus, mouth fungus and fin and tail rot).	Quickly controls fungus infections and helps prevent the growth of fungus on fish eggs prior to hatching. Provides a synthetic slime replacement that helps form a barrier against secondary infection.	72	
	017163020134	10017163020131	13B	Liquid Fungus Cure™	4 oz. bottle (118 ml)	Treats up to 118 U.S. gallons	Effectively treats saprolegnia fungus infections (eye fungus, mouth fungus and fin and tail rot).	Quickly controls fungus infections and helps prevent the growth of fungus on fish eggs prior to hatching. Provides a synthetic slime replacement that helps form a barrier against secondary infection.	12	
	317163160145	10317163160142	14P	Super Ick Cure™ Powder	10 Packets	up to 100 gallons	An effective treatment for Ich (Ichthyophthirius), also called white spot disease, in freshwater fish.	Quickly and effectively treats Ich, a highly contagious & very destructive parasite, which may cause large wounds that easily become infected. Kills the Ich parasite, usually within 24 hours.	72	
	317163160152	10317163160159	15P	General Cure™ Powder	10 Packets	up to 100 gallons	Effectively treats a wide variety of parasitic diseases.	Treats a wide variety of parasitic diseases including velvet, anchor worm, fish lice, hole-in-the-head disease, gill worms and dactylogyrus. For use in freshwater aquariums.	72	
	317163160169	10317163160166	16P	Fungus Cure™ Powder	10 Packets	up to 100 gallons	Effectively treats saprolegnia fungus infections (eye fungus, mouth fungus and fin and tail rot).	Treats saprolegnia fungus infections. Symptoms appear as tufts of cotton or white patches on fish. Commonly known as mouth fungus, eye fungus, fin & tail rot and body slime. For use in freshwater aquariums.	72	
	317163160251	10317163160258	25P	T.C. Tetracycline™ Powder	10 Packets	up to 100 gallons	Effectively treats tail rot, mouth fungus and gill disease.	Tetracycline first-aid treats common diseases such as tail rot, mouth fungus and gill disease. Aquarium filtration will not affect treatment. For use in freshwater aquariums.	72	
	317163160503	10317163160500	50P	Triple Sulfa™ Powder	10 Packets	up to 100 gallons	Effectively treats furunculosis, fin & tail rot, cotton mouth disease, body slime, & eye cloud.	A special formula of three medications to effectively treat furunculosis, fin & tail rot, cotton mouth disease, body slime and eye cloud for both fresh and saltwater fish.	72	
	317163160558	10317163160555	55P	E.M. Erythromycin™ Powder	10 Packets	up to 100 gallons	Effectively treats body slime, mouth fungus, furunculosis (open lesions) and hemorrhagic septicemia.	For the treatment of fresh and saltwater bacterial diseases such as body slime, mouth fungus, open lesions. Inhibits disease spread when introducing new fish into an aquarium. Can be used with other remedies to prevent secondary infection.	72	
	317163160701	10317163160708	70P	Furan-2™ Powder	10 Packets	up to 100 gallons	Effectively treats gill disease, mouth fungus, furunculosis, black molly disease, fin and tail rot and dropsy.	Contains two furan compounds to combat a wide variety of gram-positive & gram-negative bacterial diseases, including gill disease, mouth fungus, furunculosis (aeromonas), black molly disease (columnaris), fin & tail rot and dropsy.	72	
	317163170144	N/A	14Q	Super Ick Cure™ Powder	850 grams in jar	3,270 gallons	An effective treatment for Ich (Ichthyophthirius), also called white spot disease, in freshwater fish.	Quickly and effectively treats Ich, a highly contagious & very destructive parasite, which may cause large wounds that easily become infected. Kills the Ich parasite, usually within 24 hours.	1	
	317163170151	N/A	15Q	General Cure™ Powder	850 grams in jar	3,270 gallons	Effectively treats a wide variety of parasitic diseases.	Treats a wide variety of parasitic diseases including velvet, anchor worm, fish lice, hole-in-the-head disease, gill worms and dactylogyrus. For use in freshwater aquariums.	1	
	317163170168	N/A	16Q	Fungus Cure™ Powder	850 grams in jar	3,270 gallons	Effectively treats saprolegnia fungus infections (eye fungus, mouth fungus and fin and tail rot).	Treats saprolegnia fungus infections. Symptoms appear as tufts of cotton or white patches on fish. Commonly known as mouth fungus, eye fungus, fin & tail rot and body slime. For use in freshwater aquariums.	1	
	317163170250	N/A	25Q	T.C. Tetracycline™ Powder	850 grams in jar	3,270 gallons	Effectively treats tail rot, mouth fungus and gill disease.	Tetracycline first-aid treats common diseases such as tail rot, mouth fungus and gill disease. Aquarium filtration will not affect treatment. For use in freshwater aquariums.	1	
	317163170502	N/A	50Q	Triple Sulfa™ Powder	850 grams in jar	3,270 gallons	Effectively treats furunculosis, fin & tail rot, cotton mouth disease, body slime, & eye cloud.	A special formula of three medications to effectively treat furunculosis, fin & tail rot, cotton mouth disease, body slime and eye cloud for both fresh and saltwater fish.	1	
	317163170557	N/A	55Q	E.M. Erythromycin™ Powder	850 grams in jar	3,270 gallons	Effectively treats body slime, mouth fungus, furunculosis (open lesions) and hemorrhagic septicemia.	For the treatment of fresh and saltwater bacterial diseases such as body slime, mouth fungus, open lesions. Inhibits disease spread when introducing new fish into an aquarium. Can be used with other remedies to prevent secondary infection.	1

An all natural salt, made from evaporated sea water. Helps improve gill function to reduce stress. Reduces electrolyte loss and promotes healthy gill function. Can be used with most aquarium remedies to improve recovery from disease.	1	
	317163040737	10317163040734	73D	Super Activated Carbon	1/2 gallon jar, 40 oz.		Highest quality activated carbon removes toxic organic substances, odors & colors from fresh & saltwater aquariums.	A special super activated, carbon that removes colors, odors, and organics. Research grade carbon has the best pore distribution for the most effective filtration in fresh and saltwater aquariums.	6	
	317163050736	10317163050733	73E	Super Activated Carbon	1 gallon jar, 80 oz.		Highest quality activated carbon removes toxic organic substances, odors & colors from fresh & saltwater aquariums.	A special super activated, carbon that removes colors, odors, and organics. Research grade carbon has the best pore distribution for the most effective filtration in fresh and saltwater aquariums.	4	
C	017163060734	10017163060731	73F	Super Activated Carbon	0.75 Cu Ft		Highest quality activated carbon removes toxic organic substances, odors & colors from fresh & saltwater aquariums.	A special super activated, carbon that removes colors, odors, and organics. Research grade carbon has the best pore distribution for the most effective filtration in fresh and saltwater aquariums.	1	
	017163060765	10017163060762	76A	Activated Filter Carbon	5.5 oz carton	1/2 cup for each 10 gallons of aquarium or pond water	Remove colors, odors & poisonous waste from fresh or saltwater aquariums. Can be used in all filter cartridges.	A special blend of highly activated carbon that removes colors, odors and poisonous waste. Has good pore distribution for the most effective filtration in fresh and saltwater tanks at an economical price. Can be used in all filter cartridges.	12	
	017163013761	10017163013768	76B	Activated Filter Carbon	11 oz. carton	1/2 cup for each 10 gallons of aquarium or pond water	Remove colors, odors & poisonous waste from fresh or saltwater aquariums. Can be used in all filter cartridges.	A special blend of highly activated carbon that removes colors, odors and poisonous waste. Has good pore distribution for the most effective filtration in fresh and saltwater tanks at an economical price. Can be used in all filter cartridges.	12	
	017163026761	10017163026768	76C	Activated Filter Carbon	22 oz. carton	1/2 cup for each 10 gallons of aquarium or pond water	Remove colors, odors & poisonous waste from fresh or saltwater aquariums. Can be used in all filter cartridges.	A special blend of highly activated carbon that removes colors, odors and poisonous waste. Has good pore distribution for the most effective filtration in fresh and saltwater tanks at an economical price. Can be used in all filter cartridges.	12	
	017163008798	10017163008795	79A	AMMO-CHIPS®	Pint box, 12 oz.	1/4 cup for each 10 gallons of aquarium or pond water	Remove deadly ammonia and protect against ammonia build-up or surge.	An economical ammonia remover developed especially for freshwater aquariums. Great in outdoor ponds and aquariums. Protects against ammonia build-up or surge. Keeps goldfish healthy and goldfish bowls clean for up to two weeks.	12	
	017163016793	10017163016790	79B	AMMO-CHIPS®	Quart box, 26 oz.	1/4 cup for each 10 gallons of aquarium or pond water	Remove deadly ammonia and protect against ammonia build-up or surge.	An economical ammonia remover developed especially for freshwater aquariums. Great in outdoor ponds and aquariums. Protects against ammonia build-up or surge. Keeps goldfish healthy and goldfish bowls clean for up to two weeks.	12	
	017163048794	10017163048791	79C	AMMO-CHIPS®	1/2 gallon box, 48 oz.	1/4 cup for each 10 gallons of aquarium or pond water	Remove deadly ammonia and protect against ammonia build-up or surge.	An economical ammonia remover developed especially for freshwater aquariums. Great in outdoor ponds and aquariums. Protects against ammonia build-up or surge. Keeps goldfish healthy and goldfish bowls clean for up to two weeks.	12	
	017163008804	10017163008801	80A	AMMO-CARB®	Pint box, 9oz.	1/2 cup for each 10 gallons of aquarium or pond water	Remove dissolved organic material, ammonia, colors and foul odors from the aquarium.	A special blend of highly activated carbon and ammonia removing zeolite. Contains more carbon than other brands. Use in any power filter or bubble filter for improved filtration and clearer water.	12	
	017163016809	10017163016806	80B	AMMO-CARB®	Quart box, 18 oz.	1/2 cup for each 10 gallons of aquarium or pond water	Remove dissolved organic material, ammonia, colors and foul odors from the aquarium.	A special blend of highly activated carbon and ammonia removing zeolite. Contains more carbon than other brands. Use in any power filter or bubble filter for improved filtration and clearer water.	12	
	017163035800	10017163035807	80C	AMMO-CARB®	1/2 gallon box, 37 oz.	1/2 cup for each 10 gallons of aquarium or pond water	Remove dissolved organic material, ammonia, colors and foul odors from the aquarium.	A special blend of highly activated carbon and ammonia removing zeolite. Contains more carbon than other brands. Use in any power filter or bubble filter for improved filtration and clearer water.	12	
C	017163040802	10017163040801	80D	AMMO-CARB®	0.75 Cu Ft	1/2 cup for each 10 gallons of aquarium or pond water	Remove dissolved organic material, ammonia, colors and foul odors from the aquarium.	A special blend of highly activated carbon and ammonia removing zeolite. Contains more carbon than other brands. Use in any power filter or bubble filter for improved filtration and clearer water.	1	
D	017163001909	10017163001901	90	BLACK MAGIC® CUT-YOUR-OWN Filter Cartridge	Bag of 1		Quickly remove dissolved organic material, colors, odors and gases from fresh and saltwater aquariums.	Cut your own Black Magic cartridge to fit your aquarium or pond filter from giant 12" x 12" pad. The most powerful filter cartridge available...thicker, denser and impregnated with so much super-activated carbon it comprises two-thirds its total weight!	36	
C	317163171059	10317163171056	105R	API BIO-CHEM STARS®	bulk container of 2,500 stars	4 stars for every 20 gallons of aquarium water	The perfect biological filter substrate for any fresh or saltwater aquariums. Made of porous polymer.	House massive colonies of nitrifying bacteria that rapidly develop a biological filter in fresh or saltwater aquariums. Space-age porous polymer allows for rapid transfer of oxygen & water. Fits any filter. Requires only four stars per 20 gallons.	1	
C	317163001493	10317163001490	49A	API Water Softener Pillow	Small Pouch Size # 5	Treats up to 20 U.S. gallons	Resins remove calcium, magnesium and soluble heavy metal ions. Fully rechargeable.	Removes calcium, magnesium and soluble heavy metals from aquarium water. Lowers hardness and softens water. Does not add harmful ingredients. Convenient pouch is fully rechargeable. For tanks up to 20 gallons. One pillow.	24	
D	317163002490	10317163002497	49B	Water Softener Pillow	Extra-Large	Treats over 20 gallons	Resins remove calcium, magnesium and soluble heavy metal ions. Fully rechargeable.	Removes calcium, magnesium and soluble heavy metals from aquarium water. Lowers hardness and softens water. Does not add harmful ingredients. Convenient pouch is fully rechargeable. For tanks over 20 gallons. One pillow.	12	
C	317163011089	10317163011086	108A	API BIO-CHEM ZORB®	Large Pouch Size # 6	Treats up to 55 gallons	Advanced filtration material. Better than carbon alone! Convenient pouches treat up to 55 gallons.	Filtration material composed of a unique blend of pharmaceutical-grade ion exchange resins, research grade organic scavenger resins & high porosity activated carbon. For fresh, saltwater and reef aquariums.	12	
C	317163021088	10317163021085	108B	API BIO-CHEM ZORB®	Small Pouch Size # 5	Treats up to 20 gallons	Advanced filtration material. Better than carbon alone! Convenient pouches treat up to 20 gallons.	Filtration material composed of a unique blend of pharmaceutical-grade ion exchange resins, research grade organic scavenger resins & high porosity activated carbon. For fresh, saltwater and reef aquariums.	24	
C	317163041086	10317163041083	108D	API BIO-CHEM ZORB®	Bulk pack of 18 Large pouches Size # 6	Treats up to 55 gallons	Advanced filtration material. Better than carbon alone! Convenient pouches treat up to 20 gallons.	Filtration material composed of a unique blend of pharmaceutical-grade ion exchange resins, research grade organic scavenger resins & high porosity activated carbon. For fresh, saltwater and reef aquariums.	1	
C	317163011096	10317163011093	109A	API PHOS-ZORB™	Large Pouch Size # 6	Treats up to 55 gallons	Selectively remove phosphate and silicate from fresh and saltwater aquariums.	Specialized synthetic adsorption media that removes phosphate and silicate from fresh and saltwater aquariums. Treats up to 55 gallons.	12	
C	317163011102	10317163011109	110A	API NITRA-ZORB™	Large Pouch Size # 6	Treats up to 55 gallons	Selectively remove ammonia, nitrite & nitrate from freshwater aquariums. Convenient pouches treat up to 55 gal.	Composed of natural and synthetic ion-exchange resins in a convenient pouch. Selectively removes ammonia, nitrite and nitrate from freshwater aquariums. Completely rechargeable with Doc Wellfish's Aquarium Salt.	12	
C	317163021101	10317163021108	110B	API NITRA-ZORB™	Small Pouch Size # 5	Treats up to 20 gallons	Selectively remove ammonia, nitrite & nitrate from freshwater aquariums. Convenient pouches treat up to 55 gal.	Composed of natural and synthetic ion-exchange resins in a convenient pouch. Selectively removes ammonia, nitrite and nitrate from freshwater aquariums. Completely rechargeable and contains no phosphate.	24	
D	017163024811	10017163024818	81A	Ammo-Cat®, Cat Litter Additive	Quart box, 24 oz.		Lock up urine odors before they spread through your house.	A special zeolite resin which absorbs ammonia from cat urine and small animal litter, Ammo-Cat extends the life of cat litter up to three times and is non-toxic, odorless and contains no chemical additives.	12	
	017163048817	10017163048814	81B	Ammo-Cat®, Cat Litter Additive	1/2 gallon box, 48 oz.		Lock up urine odors before they spread through your house.	A special zeolite resin which absorbs ammonia from cat urine and small animal litter, Ammo-Cat extends the life of cat litter up to three times and is non-toxic, odorless and contains no chemical additives.	12	
D	017163024828	10017163024825	82	Ammo-Litter®	Quart box, 24 oz.		Lock up small animal urine odors before they spread through your house.	Ammo-Litter mixes with any brand of small animal bedding or litter to lock up urine odors before they spread through your home. Non-toxic, odorless and contains no chemical additives.	12	
	317163001264	10317163001261	26	Freshwater /Saltwater NITRITE Test Kit	Test kit of 180 tests	Test kit of 180 tests	Tests for nitrite levels from 0 to 5 ppm in freshwater aquariums.	Tests for nitrite in freshwater & saltwater aquariums. Nitrite, toxic to fish, is produced by nitrifying bacteria in the biological filter as it breaks down ammonia. 180 tests per kit.	24	
	317163001271	10317163001278	27	Freshwater/Saltwater HIGH RANGE pH Test Kit	Test kit of 160 tests	Test kit of 160 tests	Measure pH changes in marine aquariums, aquariums with African cichlids and very alkaline tap water.	Use to measure pH changes in marine aquariums, aquariums with African cichlids, and very alkaline tap water. Reads the pH of water within the high range of 7.4 to 8.8, 250 tests per kit.	24	
	317163001288	10317163001285	28	Freshwater pH Test Kit	Test kit of 250 tests	Test kit of 250 tests	Test pH levels from 6.0 to 7.6.	Proper pH control is imperative to prevent the harmful effects of too alkaline or too acidic aquarium water on fish and plant life. Tests pH levels from 6.0 to 7.6, 250 tests per kit.	24	
	317163020296	10317163020293	29A	Freshwater DELUXE pH Test Kit	Test kit of 250 tests	Test kit of 250 tests	Test the pH of freshwater within a 6.0 to 7.6 range and adjust pH levels as required, 250 tests per kit.	Enables user to adjust pH levels as required & includes 1.25 oz bottles of pH Up, pH Down, and pH Indicator Solution. Tests the pH of water within a 6.0 to 7.6 range, 250 tests per kit.	24	
	317163010587	10317163010584	58	Freshwater General Hardness (GH) & Carbonate Hardness (KH) Test Kit	Box of one test kit		Tests tap water & freshwater aquariums for general hardness (GH) and carbonate hardness (KH).	Tests tap water & freshwater aquariums for general hardness (GH) and carbonate hardness (KH).Helps prevent fish stress caused by rapid pH shifts, the result of low levels of KH.	24	
	317163010594	10317163010591	59	Freshwater/Saltwater Carbonate Hardness (KH) Test Kit	Box of one test kit		Tests tap water & fresh or saltwater aquariums for carbonate hardness (KH).	Tests tap water & fresh or saltwater aquariums for carbonate hardness (KH). Helps prevent fish stress caused by rapid pH shifts, the result of low levels of KH.	24	
	317163000182	10317163000189	LR1800	Freshwater/Saltwater Nitrate Test Kit	Test kit of 90 tests	Test kit of 90 tests	Tests nitrate levels from 0 to 160 ppm in fresh or saltwater.	Effective for both fresh & saltwater aquariums. High levels of nitrate are a food source for unwanted algae & indicate poor water quality & health problems for fish. Tests nitrate levels from 0 to 160 ppm.	24	
	317163000861	10317163000868	LR8600	Freshwater/Saltwater Ammonia Test Kit	Test kit of 130 tests	Test kit of 130 tests	Tests ammonia levels from 0 to 8 ppm in fresh or saltwater.	Salicylate test measures ammonia levels in both fresh & saltwater aquariums. Ammonia, the #1 killer of tropical fish, is continually produced in the aquarium from fish waste & uneaten fish food. Tests ammonia levels from 0 to 8 ppm.	24	
	317163120637	10317163120634	63L	Freshwater/Saltwater Phosphate Test Kit	Test Kit of 150 tests	Test Kit of 150 tests	Tests tap water & fresh or saltwater for phosphate levels.	As phosphate increases, so does the chance of having unsightly algae and green water blooms. Test reads 0 to 10 mg/l or parts per million (ppm) of phosphate in fresh or salt water.	24	
	317163120651	10317163120658	65L	Freshwater/Saltwater Copper Test Kit	Test kit of 90 tests	Test kit of 90 tests	Tests tap water & fresh or saltwater aquariums for copper levels.	Test reads 0 to 4 mg/L or parts per million (ppm) of copper. Helps to maintain a healthy aquarium or pond for fish by ensuring that copper (a common treatment for many parasitic infections) levels are within the healthy range.	24	
	317163120699	10317163120696	69L	Freshwater/Saltwater Calcium Test Kit			Tests tap water & fresh or saltwater aquariums for calcium levels.	This kit allows for easy and accurate measuring of calcium levels to help in maintaining a healthy aquarium.	24

	317163010341	10317163010348	34	FRESHWATER MASTER TEST KIT	Tests include: freshwater pH, high range pH, ammonia, nitrite, GH (general hardness) and KH (carbonate hardness). Kit features 4 test tubes, a holding tray for testing bottles and test tube rack.		Tests tap water and aquarium water six different ways to protect fish from dangerous water conditions.	Freshwater Master Test Kit is a complete kit for testing tap water & aquarium water. Tests water 6 different ways to protect tropical fish from dangerous water conditions. Tests include: freshwater pH, ammonia, nitrite, high range pH, GH & KH, 4 test tubes, tray.	12	
	317163134016	10317163134013	401M	SALTWATER LIQUID MASTER TEST KIT	Tests include: high range pH, ammonia, nitrite and nitrate. Kit features 4 test tubes, a waterproof holding tray for testing bottles and test tube rack.		Complete kit for testing marine aquarium water.	A complete kit for testing saltwater & reef aquariums. Test include: high range pH, ammonia, nitrite, nitrate, 4 test tubes, tray & rack. Tests water 4 ways to protect marine fish from dangerous water conditions.	12	
	317163134023	10317163134020	402M	REEF MASTER TEST KIT	Tests include: Calcium, Carbonate Hardness (KH), Phosphate & Nitrate), 4 test tubes, tray.		4 tests measure the most important aquarium levels in a Reef Aquarium to protect reef dwellers.	API's REEF Master Test Kit measures the most important aquarium levels in a Reef Aquarium. 4 different tests calibrated specifically for Reef aquariums are designed to protect reef-dwellers from dangerous water conditions. Tests include: Calcium, Carbonate Hardness (KH), Phosphate & Nitrate), 4 test tubes, tray.	12	
	317163160343	N/A	34P	FRESH and SALTWATER PROFESSIONAL LIQUID TEST KIT	Tests include: nitrite, pH, high range pH, ammonia, nitrite, GH and KH plus wall chart. NEW		Tests tap water, pond and aquarium water with 7 tests to protect fish from dangerous water conditions.	A liquid test kit including seven tests for professionals to test tap water, aquarium (both fresh and saltwater) and pond water for Low Range pH, High Range pH, Ammonia, Nitrite, Nitrate, GH and KH levels.	1	
	317163010327	10317163010324	32	Replacement Test Tubes with Caps		Bulk pack of 24	Glass test tubes with caps.	Replacement box of 24 test tubes and caps. For use in all Aquarium Pharmaceuticals water testing kits where the original tube has been lost or damaged.	12	24
D	317163080344	20317163080348	34H	Freshwater pH Test kit Refill		1 1/4 oz. bottle	Test pH levels from 6.0 to 7.6.	Proper pH control is imperative to prevent the harmful effects of too alkaline or too acidic aquarium water on fish and plant life. Tests pH levels from 6.0 to 7.6. 250 tests per kit.	12	
D	317163100349	20317163100343	34J	Freshwater/Saltwater AMMONIA test kit refill (Salicylate)		Two 1 1/4 oz. bottles	Tests ammonia levels from 0 to 8 ppm in fresh or saltwater.	Salicylate test measures ammonia levels in both fresh & saltwater aquariums. Ammonia, the #1 killer of tropical fish, is continually produced in the aquarium from fish waste & uneaten fish food. Tests ammonia levels from 0 to 8 ppm.	12	
D	317163110348	20317163100343	34K	Freshwater/Saltwater NITRITE test kit refill		1 1/2 oz. bottle	Tests nitrate levels from 0 to 160 ppm in fresh or saltwater.	Effective for both fresh & saltwater aquariums. High levels of nitrate are a food source for unwanted algae & indicate poor water quality & health problems for fish. Tests nitrate levels from 0 to 160 ppm.	12	
D	317163120347	20317163110342	34L	Freshwater/Saltwater NITRATE test kit refill		2 1 1/2 oz. bottles	Tests nitrate levels from 0 to 160 ppm in fresh or saltwater.	Effective for both fresh & saltwater aquariums. High levels of nitrate are a food source for unwanted algae & indicate poor water quality & health problems for fish. Tests nitrate levels from 0 to 160 ppm.	12	
D	317163130346	20317163130340	34M	Freshwater GH Test Kit Refill		1 1/4 oz. bottle	Tests tap water & freshwater aquariums for general hardness (GH).	Tests tap water & fresh or saltwater aquariums for general hardness (GH). Helps aquarists to prevent stressful conditions caused by GH level shifts.	12	
D	317163140345	20317163140349	34N	Freshwater/Saltwater KH Test Kit Refill		1 1/4 oz. bottle	Tests tap water & fresh or saltwater aquariums for carbonate hardness (KH).	Tests tap water & fresh or saltwater aquariums for carbonate hardness (KH). Helps prevent fish stress caused by rapid pH shifts, the result of low levels of KH.	12	
D	31763170342	20317163170346	34Q	Freshwater/Saltwater HIGH RANGE pH test kit refill		1 1/4 oz. bottle	Measures pH from 7.4 to 8.8 in either fresh or saltwater aquariums.	Proper pH control is imperative to prevent the harmful effects of too alkaline or too acidic aquarium water on fish and plant life. Tests pH levels from 7.4 to 8.8.	12	
	317163040331	10317163040338	33D	API® Ammonia Test Strips		25 count	Measures ammonia levels from 0 to 6 ppm in fresh or saltwater in one easy step. Just dip & read!	Measures ammonia levels from 0 to 6 ppm in fresh or saltwater in one easy step. Just dip & read!	24	
	317163050330	10317163050337	33E	API® Nitrite/Nitrate Test Strips		25 count	Tests nitrate & nitrite levels in fresh or saltwater. Just dip & read!	Tests nitrate & nitrite levels in fresh or saltwater. Just dip & read!	24	
	317163060339	10317163060336	33F	API® pH Test Strips		25 count	Tests wide range of pH levels from 6.0 To 9 in fresh or saltwater Just dip & read!	Tests wide range of pH levels from 6.0 To 9 in fresh or saltwater Just dip & read!	24	
	317163070338	10317163070335	33G	5 in 1 Aquarium Test Strips		25 count	Measures pH, Nitrite, Nitrate, Carbonate & General Hardness. Just dip & read!	Measures pH, Nitrite, Nitrate, Carbonate & General Hardness. Just dip & read!	24	
	017163001218	10017163001215	21	Doc Wellfish's Extra-Long, Extra-Strong Algae Scraper for Glass Aquariums	18 inches long		Quickly remove unsightly algae from glass aquariums.	An incredibly durable algae scraper for cleaning aquarium walls. Made with a long, strong handle to protect user from getting too wet. Scrapes algae off quickly & easily. For glass aquariums.	12	
	017163001249	10017163001246	24	Doc Wellfish's Hand Held Algae Pad for Glass Aquariums	3 inch square		Quickly remove unsightly algae from the nooks and crannies of glass aquariums with hand-held control.	Indestructible pad which gives the user hand-held control to reach in and clean the algae from the nooks and crannies of the aquarium. For glass aquariums.	36	
	017163010432	10017163010439	43	Doc Wellfish's Extra-Long, Extra Strong Algae Scraper for Acrylic Aquariums	18 inches long		Quickly remove unsightly algae from acrylic aquariums.	Durable algae scraper for cleaning aquarium walls. Made with a long, strong handle to protect user from getting too wet. Scrapes off algae quickly and easily. For acrylic aquariums.	12	
	017163010449	10017163010446	44	Doc Wellfish's Hand Held Algae Pad for Acrylic Aquariums	3 inch square		Quickly remove unsightly algae from the nooks and crannies of acrylic aquariums with hand-held control.	Indestructible pad which gives the user hand-held control to reach in and clean the algae from the nooks and crannies of the aquarium. For acrylic aquariums.	36	
	317163041239	10317163041236	123	Safe & Easy® Spray	8 fl. oz. (237 ml)		Cut through the white, crusty mineral deposits on your aquarium. Just spray on and wipe off!	Convenient bottle with spray trigger. Just spray on and wipe off. Cuts through the white crusty mineral deposits all over the aquarium. Use on glass or acrylic aquariums, hoods, filters, frames and stands. Non-toxic to fresh and saltwater fish.	12	
D	317163011232	10317163011239	123A	Safe & Easy® Wipes			Quick, convenient, safe for use inside and outside of glass or acrylic aquariums, hoods or stands.	Quick, convenient, safe for use inside and outside of glass or acrylic aquariums, hoods or stands. Reduces future maintenance.	12	
	317163025765	10317163025762	576B	Leaf Zone®	4 oz. bottle (120 ml)	Treats 235 U.S. gallons	Promote the healthy growth of aquatic plants.	Liquid fertilizer formulated for rapid absorption by plant leaves. Contains chelated iron and potassium essential for lush green leaves.	12	
	317163075760	10317163075767	576G	Leaf Zone®	8 oz. bottle (237 ml)	Treats 474 U.S. gallons	Promote the healthy growth of aquatic plants.	Liquid fertilizer formulated for rapid absorption by plant leaves. Contains chelated iron and potassium essential for lush green leaves.	12	
	317163105764	10317163105761	576J	Leaf Zone®	16 oz bottle (473 ml)	Treats 946 U.S. gallons	Promote the healthy growth of aquatic plants.	Liquid fertilizer formulated for rapid absorption by plant leaves. Contains chelated iron and potassium essential for lush green leaves.	12	
	317163035771	10317163035778	577C	Root Tabs	10 ct blister card		Tablet fertilizer for vibrant growth of aquatic plants	Tablet fertilizer containing key essential nutrients to stimulate plant growth; rich in iron for strong roots	72	
D	317163045770	10317163045777	577D	Root Tabs	40 ct box		Tablet fertilizer for vibrant growth of aquatic plants	Tablet fertilizer containing key essential nutrients to stimulate plant growth; rich in iron for strong roots	24	
	317163035788	10317163035785	578C	First Layer® Pure Laterite	20 oz. box (560 g)		Ideal gravel additive for aquatic plants.	All natural planting media for aquatic plants. Granular form which is ideal for aquarium use and is better than aquarium gravel alone. Perfect for naturally-planted aquariums.	12	
	317163055786	10317163055783	578E	First Layer Pure Laterite™	55 oz. box (1.54 kg)		Ideal gravel additive for aquatic plants.	All natural planting media for aquatic plants. Granular form which is ideal for aquarium use and is better than aquarium gravel alone. Perfect for naturally-planted aquariums.	6	
	317163020913	10317163020910	91B	Splendid Betta® Complete Water Conditioner	1-1/4 oz. Bottle on card	Treats 15 U.S. gallons	Add to Betta Bowl to remove chlorine, chloramines, ammonia and heavy metals in tap water.	Instantly makes water safe for Bettas by removing chlorine, chloramine and heavy metals from tap water and adding electrolytes. It also detoxifies deadly ammonia and aids in healing with the power of Aloe Vera.	72	
	317163020920	10317163020927	92B	API® Betta Water Conditioner	1.7 oz. Bottle on card	Treats 20 U.S. gallons	Instantly makes tap water safe for Bettas by removing chlorine, chloramines and ammonia in tap water.	Instantly makes water safe for Bettas by removing chlorine, chloramine and heavy metals from tap water and adding electrolytes. It also detoxifies deadly ammonia and aids in healing with the power of Aloe Vera.	72	
	317163020937	10317163020934	93B	API® Bettafix Beta Medication	1.7 oz. Bottle on card	Treats 15 gallons	A remarkable natural antibacterial remedy for the treatment of Betta diseases.	Repairs damaged fins and promotes fin regrowth with its natural antibacterial properties at the first signs of bacterial or fungal disease, or from tissue damage caused by stress from handling.	72
